

## Obi TENS

The Obi TENS is simple, versatile and perfect for those painful moments during labour. It is one of the most effective, portable, affordable obstetric TENS machines available today.

*“I had a totally drug free labour and delivery all due to the TENS machine. Totally invaluable!”*

E Corner

*\*Babycare TENS units are guaranteed for one year (excluding consumables), against manufacturer's defects. Do not use before 37 weeks of pregnancy. Do not use if you have a demand type pacemaker. If you have any doubts whatsoever consult a medical professional.*
