Trolli

Wheelchair mobility with a smart approach

Trolli by Ormesa is a compact and light wheelchair for teens and adults, it is **designed to perform in any context of use**.

Trolli has a **stable and resistant structure** guaranteed by the **double cross** positioned behind the backrest and under the seat which gives greater stability and comfort.

Thanks to its **international patented folding system**, Trolli folds quickly with one single operation, occupying the minimum space. Once folded it remains compact and it can be carried on its rear wheels like a travel trolley

The **upholstery** is made with **advanced technological materials**: it is **extremely breathable, resistant, easily washable** and **fire retardant**.

It is available in two models: **Trolli** and **Trolli with self-propelling wheels**.

Thanks to a **wide range of available components**, it easily meets every needs.

PRODUCT
MARKED 

TROLLI is a MEDICAL DEVICE COMPLYING WITH THE SAFETY REQUIREMENTS DEFINED BY REGULATION (EU) 2017/745

More autonomy, more p

Two versions for every need: Trolli and Trolli v

Easy to push and handle, it can be used both on **internal domestic paths and outdoor**, all in complete **practicality and comfort**.

Its **low weight** and its **simplicity of folding**, make it easy to lift or move: it is perfect if you need to store it in the car. It is so easy to handle that **it can be pushed even with one hand**. This makes Trolli the **ideal solution for dynamic families**, often traveling and who are looking for **stability, practicality and comfort, all in one!**

Trolli is equipped with a **braking system connected to the wheelchair push handles** that can be operated directly by the caregiver.

The **“Ormesa Design” original profile wheels** adapt to any terrain offering maximum comfort to both the caregiver and the user sitting:

- **Front solid swiveling wheels** (unpuncturable) , 17 cm (7”) in diameter for size 36 and 40; 20 cm (8”) in diameter for size 43.
- **Rear solid wheels** (unpuncturable) with **independent drum brakes**, 25 cm (10”) in diameter for size 36 and 40; 30 cm (12”) in diameter for size 43. **Overcoming step bar** on both rear wheels.

performance

with self-propelling wheels

Trolli with self-propelling wheels is a wheelchair designed to simplify everyday life without compromising functionality and comfort. It is light and easy to handle and also this version of Trolli is foldable and easy to carry.

It is equipped with a **manual braking system** that can be operated directly by the person sitting in it.

The **Ormesa design wheels** guarantee optimal grip on every terrain:

- **Front solid swiveling wheels** (unpuncturable) , 17 cm (7") in diameter.
- **Rear self-propelling wheels**, 56 cm (22") in diameter with **hand brake**. **Overcoming step bar** on both rear wheels.

Functional Design

Foldable in one operation

Trolli and **Trolli with self-propelling wheels** have an aluminium **folding frame**, painted with non-toxic epoxy powders.

Thanks to the **international patented folding system**, Trolli can be **folded quickly with one single operation**, the swivel footrests are in line with the frame occupying the minimum space. **Once folded they are compact**: this allows to carry them on their rear wheels with ease.

Their **low weight** and **simplicity of folding**, make it easy to lift or move: they are the **ideal solution for transfers of people with mobility difficulties** to airports, stations, to allow access to tight spaces and to **meet mobility needs**.

Like a travel trolley

Extreme breathability

Leading-edge cover

The upholstery of **Trolli and Trolli with self-propelling wheels** has a **leading-edge structure**, made with **advanced technological materials, extremely breathable in contact with the skin**. It is a guarantee of:

- › **Hygiene:** the texture with essential design allows excellent breathability that reduces sweating and bacteria formation.
- › **Washing:** despite the upholstery is not removable, the fabric composition allows easy sanitization and washing.
- › **Quick drying.**
- › **Resistance:** The high resistance texture maintains its performance even at high loads..
- › **Fire retardant:** Reaction to fire Class 1 (non-flammable combustible materials) according to the MD of 26th. June, 1984 and subsequent amendments and additions.

Technical features and adjustments

Seat

Ergonomic and slightly tilted seat to prevent slipping of the pelvis and ensure greater comfort. The cross below ensures stability, comfort and endurance.

Handles

Push handles with manual and parking brakes. Very useful handles to manage the aid in different environments. Not available for Trolli with self-propelling wheels.
