Trollino

Suitable for any environment

Stability, practicality and comfort: all in one.

Trollino by Ormesa is a compact and light **stroller for children and teens**, ideal to move in any environment.

It is easy to handle thanks to the **international patented system** which allows you to **fold it with one single operation**. Once folded it doesn't increase its length, **occupying the minimum space**.

Trollino has a **durable and resistant structure** guaranteed by the **double cross** positioned behind the backrest and under the seat which gives greater stability and comfort.

The **upholstery is made with advanced technological materials**: it is extremely **breathable, resistant, easily washable** and **fire retardant**. It is available in **four colors**: red, blue, pink and black.

Thanks to a **wide range of available components**, it easily meets every need.

PRODUCT
MARKED 

TROLLINO is a MEDICAL DEVICE COMPLYING WITH THE SAFETY REQUIREMENTS DEFINED BY REGULATION (EU) 2017/745

Practical and light

It fits your dynamic lifestyle

Trollino has an aluminium **folding frame**, painted with non-toxic epoxy powders.

Once folded it remains compact: this allows you **to carry Trollino** on its rear wheels like a **travel trolley**.

Its **low weight** and its **simplicity of folding**, makes it easy to lift or move: it is perfect if you need to store it in the car or to take public transport.

The **wheels adapt to any type of terrain** offering maximum comfort to both mother and child. It is so handy that **it can be pushed with one hand**.

Trollino is the **ideal solution** for dynamic families often traveling and that are looking for **stability, practicality and comfort, all in one!**

Smart upholstery

Leading-edge cover

The upholstery of Trollino has a **honeycomb** leading-edge structure, therefore it is **extremely breathable in contact with the skin**.

The structure of the fabric creates an “air chamber” that allows both **air circulation for maximum breathability** and an **effective natural thermal insulation**.

The double layer is a guarantee of:

- › **Hygiene:** thanks to the excellent breathability, it reduces sweating and bacteria formation.
- › **Washing:** despite the upholstery is not removable, the fabric composition allows easy sanitization and washing.
- › **Quick drying.**
- › **Resistance:** High resistance to abrasion. The high resistance texture maintains its performance even at high loads (ISO 12947 test).
- › **Fire retardant:** according to EN 1021-1:2014 and EN 1021-2:2014.

Technical features and adjustments

Backrest

Reclinable on three positions. Simple adjustment in height by sliding, without the risk of losing the screw. On the back the bag to store the manual and the supplied wrench. The back cross ensures stability, comfort and endurance.

Seat

Ergonomic and slightly tilted seat to prevent slipping of the pelvis and ensure greater comfort. Adjustable in depth by sliding and in width thanks to additional component 958 padded pelvic side supports. Simple adjustment without the risk of losing the screw. The cross below ensures stability, comfort and endurance.

Handles

Push handles with manual and parking brakes. Very useful handles to manage the stroller in different environments. Adjustment in height with component 951.

Legrest

adjustable in height.

Footrests

Tilting and swivel footrests in line with the frame without encumbrance. Adjustment in tilt with component 956.

The calf support band is also included for more comfort.

Wheels

with "Ormesa Design" original profile.

Solid, light and **all-terrain wheels**.

Front solid swiveling wheels: 17 cm (7") in diameter.

Rear solid wheels: 25 cm (10") in diameter, with **independent drum brakes**.

Overcoming step bar on both rear wheels.

Components

The importance of an ergonomic seat

For us, **comfort and ergonomics are essential values:**

Trollino not only makes users feel safe and extremely comfortable but it helps to offer an optimal and stable posture in the most disparate circumstances.

From the backrest to the seat, passing through the headrests and then trunk side supports, **each element of Trollino is adjustable in a simple and intuitive way.** Furthermore, with its set of additional components, it offers possibilities of customization and comfort without limits.

Easy to apply and remove, handy and durable, Trollino's components are designed to the smallest detail.

The **international patented system** allows you to **fold it with one single operation, even with mounted components**, to ensure a fully satisfactory user experience.

Components

835 Shaped and enveloping headrest
adjustable in height.

865 Padded headrest
adjustable in height.
